OBJECTIVE

I am looking for a remote position in a Startup where I can learn more and bring value with my Full Stack Development skills. In Henry Bootcamp I started without knowing how to code to Full Stack Developer in just 6 months.

PROJECTS

G4 Shirts

- Worked with 7 persons doing teamwork and presenting the project to Henry's staff.
- Authentication, 2FA, database management with Sequelize, Express routing, password hashing with Bcrypt.

Mondo countries

• Controlled forms, database management with PostgreSQL, React and Redux states, complex searches, optimized queries, photos management. Deployed with Heroku and Netlify.

Personal Website

- Responsive react app to show my portfolio, contact form, skills and who I am.

SKILLS

Front End

HTML, CSS, JavaScript, React, Redux

Back End

Node, Express, Sequelize, PostgreSQL

Other

Git, Testing (Chai, Mocha), NPM, Postman

LANGUAGES

Spanish

Native, C2

English
